

Urdu Poetry - Admin Guide

What

How someone becomes admin

Admin access is checked when either the user's profile has `user_role = 'admin'` in Supabase, or they log in as `admin@urdupoetry.com` (hardcoded fallback for local/demo use).

To set the first real admin in Supabase, run `supabase/migrate-user-role.sql` in the Supabase SQL Editor (it can promote a user by email).

Where admins go

- Route: `#/admin` (Admin Dashboard)

- Lin

What admins can do (Admin Dashboard)

1. Manage user roles

- See all registered users (email, name, username)

- Ch

2. Manage writing tags

- Add, edit, and delete scrolling tags in the Write / compose window

- Sa

3. Review reports (moderation)

- See pending reports (posts or users reported by others)

- Ap

4. Contest overview (read-only)

- View active contests (title, entries, deadline, prize)

- Vie

Backend powers (API / Supabase) - not all have UI

- Set featured poem (`featured_poem` table) - No UI, API only (`API.setFeaturedPoem`)

- Up

What admins cannot do (by design)

- End someone else's live mushaira - only the event host can use End Event

- De

Admin vs regular user vs mushaira host

Action	Regular user	Admin	Mushaira host
Post poetry, join rooms	Yes	Yes	Yes
Create mushaira	Yes (logged in)	Yes	Yes
End / delete own mushaira	Yes (host only)	Only if creator	Yes
Admin dashboard	No	Yes	If also admin
Promote users to admin	No	Yes	No
Manage writing tags	No	Yes	No
Resolve reports	No	Yes	No

Summary: Admins run the Admin Dashboard - user roles, writing tags, and report moderation - plus backend access to featured poem and profile updates. They do not automatically control live mushairas unless they are also the host.
